

23rd September 2025

Dear Year 3 children and parents,

Year 3 have an exciting opportunity to enhance their learning in their Stone Age topic in History.

The children will take part in an outdoor learning day on Thursday 2nd October. During the morning the children will be exploring Stone Age life through map skills and other activities. These activities will be run by an outside provider on the school grounds with Miss Ashe supporting the children for the day.

The children will need to wear old clothing that is appropriate for the weather as they will be outside in the school grounds all day.

Please ensure that your child has sensible footwear such as old trainers or wellies.

We are asking for a £3 contribution towards the cost of the experience. This can be paid on the School Money APP.

Thank you for your continued support.

Miss Ashe and Mrs Raja
